ABOUT ME

I'm a passionate and self-motivated student currently pursuing a Bachelor's in Information Management. I enjoy building user-friendly web applications and solving real-world problems with code. With hands-on experience in React, Tailwind CSS, and modern web tools, I'm always looking for opportunities to learn, grow, and contribute meaningfully to tech projects.

EDUCATION

Bachelor of Information Management
Mechi Multiple Campus, Jhapa
2022 – Present

TECHNICAL SKILLS

Programming Languages: JavaScript, C, HTML

Frameworks & Libraries: React, Tailwind CSS, Node.js

Tools & Platforms: Git, VS Code, Figma, DevTools

Other Skills: UI/UX Design, Responsive Design, Speech Recognition

PROJECTS

1.Voice Based Calculator

Built a calculator that understands and performs calculations using voice commands. Used React, Web Speech API, and Tailwind CSS.
